

## ATTACHMENT B

### UPDATE OF REVENUE ESTIMATES

1. Make all changes in RED INK to facilitate the keypunching phase of the reporting cycle.
2. Briefly explain all changes (increases and decreases). Please print the name of a reference person and a phone number for follow-up questions.
3. **Provide actual/preliminary actual revenues for FY 02**, estimates for FYs 2003-09 and explain how the estimates were determined.
4. For accounts with "S" type appropriations, e.g., appropriation symbol = S2003nnnX, identify whether the account is a Special Fund or a Revolving or Other Fund.
5. For Special Funds that have been repealed, DO NOT DELETE the revenue record. Place zeroes in the revenue amounts of the appropriate fiscal periods instead of deleting the record and annotate on the form the fund has been repealed.
6. Please ensure all transfers from non-general funds to the general fund are included on revenue worksheets. For repealed special funded programs that are transferred to the general fund, fill out a worksheet that reflects the projected revenues in the general fund. On a separate form, provide an estimate of the ending balance that will be transferred upon termination of the special fund using source code 1992.
7. For "pass-through" transactions. If your agency is the lead agency and funds are transferred via DAGS' 804/805 transaction codes, report total funds received before pass-through occurs. Receiving agencies need not report these revenues. All other transfers that are not recorded via 804/805 transactions must be reported by the receiving agency.
8. Include all previously unreported revenue sources on appropriate new forms. Tax revenues, federal grants, and other than federal grants should be reported on forms for Revenue Type "X," "Y," and "Z," respectively. Please do not submit new estimates on prior year blank forms. The year codes are no longer valid.
9. Use only valid DAGS source codes. Where source codes or appropriation symbols are pending, e.g., new programs, complete a blank revenue form for these programs and report the applicable projected revenues, leaving the unknown codes/symbols blank, and noting the information is pending. When a new source code is assigned, submit the authorization from DAGS along with the revenue sheet.

10. To ensure the correct matching of revenue estimates and collection data on the MBP454-B Report (FAMIS system), the estimate data will be posted to the parent account if both parent and program accounts are reported for a revenue source.
11. Where worksheets are centrally collected from programs for submission to the Department of Budget and Finance (B&F), please send whatever you have before the deadline instead of waiting for "stragglers." Please indicate whether more worksheets will be forthcoming or not.
12. Submit worksheets (**original and one copy**) with CHANGES ONLY to B&F, Budget, Program Planning and Management Division (BPPMD), through the Director of Finance, on or before the stated deadline.
13. If there are NO CHANGES, please return or FAX the attached sample transmittal on or before the stated deadline to the B&F, BPPMD (FAX number - 586-1873).
